\$ cat experience.log — Experience

Creative Developer [Adnami](#) Copenhagen, DK · 2024 — present

- Own the creative development pipeline for high-impact ad formats (Skin, Midscroll, Topscroll) — from Figma to certified, shipped creatives for major brands across the Nordics.
- Built globally certified format templates for programmatic execution; drive format R&D and design research for new products.
- Design and build AI-agentic tooling for the creative workflow — automated QA, delivery pipelines, and an agent-assisted production system used daily.

CTO & Co-Founder → Advisor [4Foodies](#) Turin, IT · 2021 — 2025

- Co-founded a food-tech startup; owned brand identity, product design and web. Raised ~500k EUR and opened a physical store; transitioned to advisor after selling shares.

2022-23 Design Researcher — Design Disciplin, Malmö (design-career research tool)

2021 Creative Technologist — Art Value, Stockholm (KTH-incubated digital art platform)

2021 Commercial & Interior Design — IKEA, Turin (3ds Max store layouts, launches)

2020-21 Designer & Developer — Pangramma, Turin (client sites, GSAP/Three.js/D3)

\$ ls projects/ — Projects

carlos [[ts](#) · [lancedb](#) · [mcp](#)]

Local-first AI agent system — memory, vector search, MCP tools, self-improving workflows. My daily dev sidekick.

this résumé & portfolio [[astro](#) · [tailwind](#)]

Terminal-aesthetic site with a live ASCII hero, draggable windows and a palette picker; this PDF is printed from it by code.

sculptr [[three.js](#) · [next.js](#) · [electron](#)]

Turn any SVG or sketch into an interactive 3D sculpture — real-time extrusion, materials, lighting, and export.

client studio work [[astro](#) · [next.js](#) · [gsap](#)]

Sites for studios & artists — music studio with audio-reactive waveform, bilingual tattoo-studio rebuilds, booking platforms.

\$ echo \$stack — Skills

code: typescript · javascript · python · html/css
web: astro · react · next.js · node.js
motion: gsap · three.js · web audio
ai/agents: mcp · anthropic · vector search
design: figma · adobe cc · blender · rhino
